

AHU valves are fitted over the pipe end and secured with a 316 st/st worm gear band. Learn more [Go to Product Video](#)

AHU Small Duckbill Valves

The Measurit AHU valve is designed to allow the flow of blowdown water and condensate to drain.

The EPDM valve is non reinforced allowing a flexible size range.

The valve is normally sealed shut and prevents the ingress of pollen and insects. There is a slit in the curved bill that allows water to drain.

Measure the Outside Diameter [OD] of the pipe to choose valve.

| Model Code | Pipe OD mm | W | H | L | Bill |
|------------|------------|-----|----|-----|------|
| AHU-20 | 15-20 | 50 | 25 | 73 | SB |
| AHU-30 | 25-34 | 64 | 38 | 117 | SB |
| AHU-40 | 35-40 | 66 | 30 | 96 | CB |
| AHU-50 | 41-50 | 80 | 35 | 105 | CB |
| AHU-60 | 51-60 | 97 | 35 | 115 | CB |
| AHU-50-Max | 40-50 | 91 | 40 | 150 | SB |
| AHU-60-Max | 51-63 | 115 | 40 | 175 | SB |
